1) In countries where the outside temperature frequently falls below -20 °C, we recommend the use of 0W instead of 5W products.

2) To increase the service life of the diesel particulate filter, Longlife-04 oils are recommended as soon as they are available.

3) Can be used on vehicles without DPF.

4) Recommended for vehicles without DPF and for non-EU countries.

BMW recommends Castrol.
